Appeal for help

To all people of good will

The GIANNI DIURNI school is located in Goma town in Kyeshero district. It is a public school run by the Adorno Fathers since its foundation by father Thomas Barbona. Because of war going on between Congolese army and the rebels of M23 group, life in Goma has become miserable. All the roads used to provide food to the town are now closed. Many people have run from their homes and are now living in refugy camps.

In fact, some of them have joined our school. These days we have sadly noticed that many children are weak at school not because they are sick as they say but because they dont have something to eat. Some of them even fall during lessons. When we give them something to eat, they regain their strength. Others still are suffering from malnutrition.

This is why we appeal to every person of good will to come to the rescue of these poor children whose age vary between 6 and 12 years old. We have 285 students. Girls are 141 and boys are 144. We have thought that one bottle of jus and a loaf bread per day can help each one of them.

- One bottle of jus = 0,42 USD and a loaf of bread = 0,28 USD Total = 0,7 USD
- For one day : $285 \times 0,7 = 199,5$ USD
- For one month : $199,5 \times 27 \text{ jours} = 5386,5$
- For 5 months : $5386,5 \times 5 = 26932,5$ USD
